Notes

SERVICE CATALOG / ADJUST TO YOUR ACTUAL WORK

Default hours are PER EMPLOYEE on site; two employees each working 3 hours equals SIX paid labor hours

Service	Default hours / employee	Base supplies cost (CAD)
Standard home cleaning	2.5	CAD 9.00
Deep home cleaning	4.0	CAD 17.00
Move-in / move-out	5.0	CAD 22.00
Small office cleaning	2.0	CAD 10.00
Apartment turnover	3.0	CAD 12.00
Recurring maintenance	2.0	CAD 8.00
Interior window cleaning	2.0	CAD 6.00

Service names must match the menu in QUICK QUOTE and JOB SCENARIOS. Change default hours/supplies

s. Supplies are illustrative per-job CAD costs. Special/hazardous cleaning is not included.

Definition and boundary
Typical regular residential visit
More detailed residential cleaning; check actual scope
Empty-unit residential visit; review access
Light office cleaning without specialty services
Routine apartment turnover, not restoration
Small regular recurring cleaning
Interior-accessible windows only; no elevated work

s, but for compatibility do not add or remove catalogue rows without updating the formulas and validation.

Assumptions reviewed?	REVIEW BEFORE USE

Contribution margin is NOT a tax-adjusted net profit and excludes some real-world expe

driving costs, overhead, processing fees and sales tax before quoting anyone.

What this controls
Include pay + employer burden, not the selling rate.
Operating expense per round-trip kilometer.
Allocate business insurance, supplies storage, scheduling, etc.
Applied to estimated operating costs.
Target share of pre-tax sales after estimated processing fees and costs.
Planning % only. Real processor may also charge fixed and FX fees.
A minimum before sales tax; adjust for your business.
Nearest higher increment in CAD, e.g., 5.
Default 0 = unconfigured, NOT an exemption. Verify tax rules.
Suggested customer quote expiry, not a contract.
Used on CLIENT QUOTE. Do not add private information.
Used on CLIENT QUOTE; confirm it is monitored.
All prices are CAD. No currency conversion.
Change to READY only after reviewing all costs and tax settings.

nses. Use a fully loaded labor rate including payroll costs, or margin will be overstated.
